- Ms. Hidayat Narejio, Assistant Manager (SM)

Total Number of Participants: 50

FO Representatives	42
SIDA Representatives	03
AWB Representatives	05
Total	50

Brief of Training:

One day training of Eight FOs of NCAWB was held on April 21st, 2016. The training was organized by Social Development Cell-Transition Wing SIDA with joint collaboration of NCAWB. All BoM Members of FOs and some General Body Members of FOs attended the training. The participation percentage was 100%. The resource person from SIDA & NCAWB delivered the lectures and covered major topics. One more topic role of women in water was undertaken by women social mobilizer NCAWB. All FOs were in its 4th tenure so mainly training was focused on the issues faced by FOs under institutional reforms component in term of abiana recovery, channel operation & maintenance and organizational development.

FOs showed grievances that there is no any difference between the FOs , who are paying 100% abiana and those who are not paying. Both are treated in same manner. AWB is not cooperating those FOs who are regularly doing their job as per true essence of SWMO-2002. The issue was thoroughly discussed and in this regard, one FO General Secretary Mr. Abdullah Khoso of Baghi Minor was invited to discuss on this issue. Because Baghi Minor is extremely tail of the minor and their Channel O&M is very well and rehabilitation of minor was carried out in 2005 under Community Based Contract SOFWM-Project. Mr. Khoso briefed them that unity is strength. They are regularly getting their due share and all WCAs are involved in FO affairs. The major factor of failure of FO is that they are not involving WCA Chairman and other members and due to this FO Management is not being able to manage the channel in proper manner.

Ms. Hidayat Narejo, AM(SM) briefed the forum on role of women in water. She emphasized that women is the major stakeholder of water and is involved from sowing to harvesting. She said that as such SWMO-2002 has not clearly defined the role of women in irrigation reforms but women are also shareholder of lands, so mechanically they are the part of reforms. Due to traditional issues they are not on board but if they may be given the chance, the results will be encouraged.

Mr. Masroor Ahmed Shahwani, Training Coordinator SIDA also played key role in training and he ensured that SIDA is trying to make amendments in SWMO-2002 and will also support the FOs in term of their legal issues. He emphasized that Water Allocation Committees may be formed at earliest that FOs may be able to develop their coordination with AWB regarding water issues. He further emphasized that IDMT is very important document and if FO and AWB may work as per IDMT agreement, many issues can be resolved.

Mr. Sikander Magrio, AM(SM) NCAWB emphasized on Organizational development of FOs and in last Mr. Ali Akber Bugti, AEN for FOs well briefed the issues of Channel O&M and clearly defined that how to manage the channel.

After completion of training, certificates were distributed among all participants and lunch was served.
